SCHENCK
Passion for Balancing

Connected products

1. **Contact Information**

   SCHENCK RoTec GmbH
   Landwehrstraße 55
   64293 Darmstadt
   Germany
   Tel: +49 6151 322311
   eudataact@schenck.net

2. **Type, Format and Scope of Generated Product Data**

   The data includes information such as rotor characteristics and properties, as well as balancing and process data. This data is available in binary or JSON format. The size varies depending on usage and ranges between 150KB and 1MB per operation.

3. **Continuous and Real-Time Data Generation**

   The data is generated continuously.

4. **Data Storage**

   The connected product is able to store data on an internal device. This data is not automatically deleted, but is overwritten when a threshold is reached. Protocol information can be saved externally on customer-shared network drives outside of the product.

5. **Data Access**

   SCHENCK RoTec GmbH is not the data owner.

6. **Terms of Use**

   The use of the provided data is only allowed within the scope of the contract and applicable laws. The user must ensure the security of the data.
